6. Overview of the Newly Enacted Ordinance for the Department of Early Childhood and the Role of
   the Early Childhood Community Oversight and Advisory Committee.
   Director Mezquita presented an overview of the Department of Early Childhood Enacting ordinance including
   the roles and responsibilities of its two governing bodies - the Early Childhood Community Oversight and
   Advisory Committee and the Children and Families Commission. She further explained the requirements
   within the enacting ordinance for collaboration and joint meetings between the two bodies. See Appendix A;
   slides 10-13.
7. **Discussion: 2023-2027 Strategic Plan and Initiative Development Process**

Director Mezquita presented a summary of the Vision, Mission, Values, Theory of Change, and Strategic Priorities defined in the Department’s recently adopted Strategic Plan. She detailed how current and ongoing initiative and budget planning ties into the Strategic Plan’s strategies and goals. *See Appendix A; slides 17-24.*

Member Discussion:
- Implementation approaches should be collective and individual logic models defined for each initiative.

No public comment given.

8. **Discussion: Building the 2023-2024 and 2024-2025 DEC Spending Plan**

Director Mezquita presented on spending highlights over the last year which include establishing the Department of Early Childhood, programming over $252 million Baby Prop C dollars, raising the eligibility threshold for early care and education financial assistance, eliminating the Preschool waitlist, and supporting a living wage for over 2,500 early educators. She explained that going forward, DEC plans to integrate the building blocks of Baby Prop C legislation - access, capacity, and workforce compensation – with our strategic priorities to move towards the goal of universal early care and education while maintaining targeted, equity-centered implementation approaches. Finally, she described the upcoming public budgeting process and timeline including upcoming joint meeting with the Children and Families Commission. *See Appendix A; slides 25-45.*

Member Discussion:
- Over the next five years, the roll-out of TK at SFUSD will impact capacity needs and market trends.
- As we think about capacity in conjunction with expanded income eligibility, we should account for the fact that many eligible families may choose not to participate in the City-funded system.
- Data show that expanding infant/toddler capacity needs to be the primary focus of budgeting in the coming cycle.
  - Warrants further exploration into home visiting options as DEC ramps up licensed capacity.
  - Family child care sector is highly experienced in infant/toddler care and a great place to think about capacity expansion especially now that teachers are being compensated fairly, making infant/toddler care financially sustainable in FCCs.
  - Capacity expansion should include expansion of dual-language classrooms, especially for Spanish, which is currently underrepresented in the ELS network.
- Projections of additional educators needed to reach our infant/toddler access and capacity goals are huge. This will need to be a top priority for the Department in the coming years.
- Children with special need to be considered in the budget planning. This includes leveraging cross-departmental supports and working with Golden Gate Regional Center to acquire data.

Public Comment
- Appreciate that DEC is finally paying early educators a living wage, especially so they are no longer financially penalized for serving infants and toddlers.
- As DEC builds capacity, there is a need to think about how we can support the learning and development of children right now, we can’t leave children behind while we are building facilities.

9. **CPAC Report**

None given.

10. **Director’s Report**

Director Mezquita shared two positions that the Department is currently recruiting for: 1) The Workforce Initiatives Manager 2) Quality Early Learning Programs Manager. *See Appendix A; slides 46-48.*

LAND ACKNOWLEDGEMENT

We, the San Francisco Department of Early Childhood’s Early Childhood Community Oversight and Advisory Committee acknowledge that we are on the unceded ancestral homeland of the Ramaytush Ohlone who are the original inhabitants of the San Francisco Peninsula. As the indigenous stewards of this land and in accordance with their traditions, the Ramaytush Ohlone have never ceded, lost nor forgotten their responsibilities as the caretakers of this place, as well as for all peoples who reside in their traditional territory. As guests, we recognize that we benefit from living and working on their traditional homeland. We wish to pay our respects by acknowledging the Ancestors, Elders and Relatives of the Ramaytush Community and by affirming their sovereign rights as First Peoples. We commit not only to acknowledgement but also to using our roles and privilege to promote equitable access to culturally responsive early learning opportunities and resources.

DEC Enacting Ordinance

Changes and Implications for the Early Childhood Community Oversight and Advisory Committee (EC-COAC)
Overview

- The San Francisco Department of Early Childhood’s enacting ordinance (FILE NO. 220808) went into effect on October 8, 2022. It evolves and expands publicly appointed oversight for San Francisco’s early childhood system of care.

- The Department must report to and staff two oversight bodies: The First 5 Children and Families First Commission (CFC) and the Early Childhood Community Oversight and Advisory Committee (EC COAC).

EC COAC Charge

- Recommendations on early care and education programming and initiatives

- Recommendations regarding the Early Care and Education for All Initiative and the Babies and Families First Fund (Baby Prop C)

- Recommendations regarding the Department’s Strategic Plan and other areas of policy, planning, collaboration, and strategic partnerships related to providing early care and education for children ages zero to five in San Francisco.
Legislative Charge for Publicly Appointed Bodies

While the CFC and EC COAC have differing membership, scopes, and authority, the Department’s enacting ordinance requires significant collaboration between the two bodies including joint sessions, recommendations, and formal reports. These collaborative requirements fall into three categories:

1. Public Budgeting
2. Strategic Planning
3. Early Care and Education For All Initiative Accountability

2. DEPARTMENT STRATEGIC PLAN

Strategic Plan Adoption

- First 5 Commission and the EC-COAC reviewed and adopted the Early Childhood Strategic Plan, 2023-2027, on December 7, 2022.
- Establishes priorities and places San Francisco at the national forefront of early childhood services with **unprecedented resources** to **invest in young children and their families**; and allows us to be bold.

**What it DOES:**
- Defines our vision and values
- Sets clear goals and strategies
- Establishes a Theory of Change and shared foundation for action
Vision
Every child in San Francisco has the best start in life and our City is a great place to raise a family.

Mission
To weave together family, community, and system supports so that all children who grow up in San Francisco have a strong foundation of nurturing, health, and learning.

San Francisco Department of Early Childhood

Guiding Values

As the Department of Early Childhood, we are committed to:

Racial Equity: We prioritize taking concrete action with Black, Latino, Indigenous, and Pacific Islander communities to address the disparities that persist across early childhood development outcomes for their families. We hold ourselves and one another accountable to measurable change and consider equity impacts in all our shared decision making.

Universal Access: All families should have access to high-quality education and services to support healthy early childhood development.

Collaboration with Community: When we engage parents, providers, and grantees as partners in decision-making, we expand the reach and impact of our work for countless children and families.

Continuous Learning and Improvement: To have our desired impact, we must consistently and frequently engage parents, providers, and grantees in helping us understand what is working well and where improvements are needed—and use what we learn to shift and adapt our work.

Transparency: To build and maintain trusting and productive relationships, we are open, authentic, and clear in our communication with parents, providers, grantees, and staff.
Theory of Change

ISSUE STATEMENT
Research shows that being ready for kindergarten is a key educational benchmark that leads to continued success in future years.
All children need the support of family, community, and systems to be ready for kindergarten.
Unfortunately, structural racism prevents too many San Francisco children from being ready for kindergarten and achieving their full potential. Black, Latino, Pacific Islander, and Indigenous children, face persistent inequities in health, and social and cognitive skills that support school success.

CORE STRATEGIES
Early Learning
We support teacher preparation and compensation, enhance program quality, and improve affordability and access.

Child Health
We ensure universal developmental screening and promote access to health and mental health services for children and their families.

Family Strength
We ensure that families have opportunities for social and professional connections, linkage to resources, and information on parenting and child development.

STRATEGIC PRIORITIES 2023–2028
Advance racial equity in policy, planning, and service delivery across the early childhood network of care.

Amplify parent voice and influence in shaping policy and programs.

Increase cultural responsiveness of all early childhood development services.

Increase transparency in communications and open access to information and services.

OUTCOMES
Children enter kindergarten with the cognitive, social/emotional, and physical skills that support school success.

Children are in excellent physical and mental health or have reliable access to quality health providers to address concerns.

Parents have the information, resources, and connections to peers and professionals to successfully raise their children in San Francisco.

And race is not a predictor for achieving these outcomes.

IMPACT
All San Francisco children enjoy a solid foundation to support future success.

Strategic Plan Priorities

Strategic Priorities
1) Amplify parent voice and influence in shaping policy and programs.
2) Increase cultural responsiveness of all early childhood development services.
3) Increase transparency in communications and open access to information and services.

Expected Outcomes

- Parents have the information, resources, and connections to peers and professionals to successfully raise their children in San Francisco.
- Children are in excellent physical and mental health or have reliable access to quality health providers to address concerns.

Journey to Universal Childcare

• Ambitious universal goal of reaching 42,000 children.
• Need more funding, licensed ECE spaces, and teachers.
• Use Targeted Universalism to increase access: ECE capacity focuses on infants/toddlers and reach as many lower-income-moderate income households first.
Strategies for Targeted Universal

Intentional focus for target population with Quality Programming and incentives for programs to participate.

Provide some type of financial assistance for families <200% of AMI – UPK & TK into consideration

Roll out a plan that aspires to a universal goal for all children.

Child Enrollment Growth

- Current enrollment is 8,000* children, 85% are preschool-aged with families earning below 100% of the State Median Income.

- Next year’s budget provides for up to 2,000 more children, or 10,000 total child enrollment, which includes those eligible under 110% of AMI.

- 3% Cost of Doing Business is also included in the annual child-reimbursement rate calculations.

*6,000 enrolled in ELS high-quality early care and education with an additional 2,300 receiving pass-through subsidized enrollment funding through Calworks/AP
Baby Prop C
System Building Blocks

BUILD CAPACITY
Finance infrastructure to build and sustain the growth needed in access/workforce.

Build Childcare License Capacity

Create Beautiful, Inviting and Inspiring Spaces for Children

- Uses of One-Time Only Funding (Baby Prop C Reserve): funding strategies to increase ECE access for infant/toddler spaces, earmarking $35m for next fiscal year.
- FY 23-24: 480 projected new spaces, majority infant/toddler
- 30% of childcare facilities funding earmarked for Family Childcare, includes capital development, repair and renovation, and pre-ELS, with a priority to increase African American/Black educator participation in San Francisco’s Early Learning network.

High Impact in First Year

I just received my stipend. THANK YOU so much because I was so stressed that I don’t get paid for Thanksgivings break and winter break. This fund will help me a lot for my late bills. – SFUSD Paraprofessional

Thank you so much for the CARES stipend. It has been a lifesaver for me and my family during these difficult times. The extra funds have allowed us to pay some bills and buy groceries without worrying about our financial situation. We are grateful for your support and for all that you do for the ECE community. – FCC Educator

We finally have applicants for our openings! – Title V Program Administrator

Our teachers are reporting they can finally consider moving closer to San Francisco and saying they can make teaching a career choice. – Title V Administrator

Our Site Supervisors want to get back on the floor and teach – Title V Program Admin.

ECE Workforce Pipeline – 10 Year Outlook

Over 1,200 teachers are needed to meet our targeted universal childcare goals and provide care for approximately 10,000 infants/toddlers in SF – 80% of recruitment is dedicated to new infant/toddler teachers.
Building the 2023-24 and 2024-25 DEC Spending Plan

- **Mayor’s Instructions:** General Fund reductions of 5% Y1 and 8% Y2 (5% + 3%). Expected city revenue loss of $780m due to property/transfer tax decreases; slower growth in tourism and 30% occupancy in downtown commercial space.

- **DEC Budget Considerations:** continuing to grow child enrollment, childcare facilities, and workforce compensation – a commitment to salary parity with SFUSD and COLA increases; and focus on teacher pipeline to increase the accessibility of care.

One Time Funds: Baby Prop C

- **Infrastructure – Childcare Facilities**
  - $40 million to increase infant/toddler spaces; and repair and renovation for high-quality indoor/outdoor environments.
  - $30 million PreK classroom conversion for infants/toddlers, including planning grants, I/T coursework, and incentives for teacher recruitment.

- **ECE Workforce Pipeline**
  - $30 million for Workforce
    - Teacher Pipeline
    - Stipends and scholarships
    - AA/BA Cohorts
    - Teacher Residencies and recruitment incentives, priority on increasing African American/Black educators.
